

SUNLINK™ 15-YEAR WARRANTY

Eastwood Energy Corporation (Eastwood, EE) warrants that its SunLink™ Photovoltaic (PV) Module Mounting System (MMS) when sold and delivered pursuant to an Eastwood Energy Sales Order, will be new, will conform to the specifications specified in the applicable EE Sales Order, and will be free from defects in material and/or workmanship for a period of fifteen (15) years from the date of SunLink™ shipment. Except for the foregoing limited warranties, Eastwood Energy Corporation makes no other warranties express or implied for the SunLink™ MMS.

This warranty does not apply to damage incurred during shipment and does not apply to damage that is the result of improper handling. This warranty will be void if, during the warranty period, the SunLink™ system has been improperly or incorrectly installed, used, or maintained, or has been operated under abnormal conditions or contrary to applicable specifications.

This Warranty is granted to the original SunLink™ system Owner only and is only applicable to the original installation of the SunLink™ system. This Warranty does not apply to damage to the SunLink™ system that is the result of weather conditions that exceed local building code limits that were applicable at the time that the SunLink™ system was installed.

IT IS RECOGNIZED AND AGREED THAT THE FOREGOING LIMITED WARRANTIES ARE IN LIEU OF ALL OTHER WARRANTIES, WHETHER EXPRESS OR IMPLIED AND THAT EASTWOOD ENERGY CORPORATION DOES NOT MAKE ANY WARRANTY OF MERCHANTABILITY OR ANY WARRANTY OF FITNESS FOR A PARTICULAR PURPOSE.

In the event the Sun-Link™ system fails to satisfy the foregoing limited warranties, then EE will repair or replace, at its option and cost, the defective product. The foregoing remedy shall be in lieu of all others that the SunLink Purchaser may have, and Purchaser waives all other remedies.

To obtain warranty service, the Purchaser should contact EE by telephone or email and EE will establish a Claim File and initiate action to repair or replace the defective product. EE will work with the Purchaser to determine the extent of the problem and may elect to perform site inspection. EE will arrange for removal and replacement of the defective product and bear all costs associated with transport of new and defective products to and from the installation site.

Eastwood will not assume expense or liability for correction of a defective Sun-Link™ system by the Purchaser or by third parties without Eastwood's prior written authorization. In the event of the authorized correction of a defective Sun-Link™ system, the warranty period will be extended by the length of time during which the defective equipment was in the replacement cycle.

Eastwood's total liability hereunder for the repair or replacement of a Sun-Link™ system, or any defective components thereof, shall not exceed the original purchase price of the system. In no event will Eastwood be liable for or responsible to the Purchaser or to any other party for any consequential, incidental or special loss, cost, damage, or expense arising from the curtailment or interruption of photovoltaic (PV) plant operation or from the curtailment or interruption of any operations, processes or equipment connected to the PV System.

THIS WARRANTY GRANTS THE PURCHASER SPECIFIC LEGAL RIGHTS THAT MAY VARY ACCORDING TO THE STATE IN WHICH THE SUN-LINK™ SYSTEM IS INSTALLED. IN SOME STATES, SELLERS CANNOT LIMIT THE RIGHTS OF THE PURCHASER SO YOU MAY HAVE ACCESS TO LEGAL REMEDIES IN ADDITION TO OR GREATER THAN THOSE SPECIFIED HERE.
